Information Security
ISO 27001

And 'Your' Company

Benefits of gaining ISO 27001 Certification with UKICM for your organisation are numerous and include the following…..to name a few.

- ✓ **Qualifying as a preferred supplier when tendering…**This ensures you are put to the *' Top of the pile'* giving a much higher chance of **winning contracts** over those without **certification**

- ✓ **Gaining the competitive edge over your rivals…..**Displaying the ISO 27001 Logo on your stationery and web site instils confidence in your existing and potential clients ensuring you a far greater prospect of retaining already won and **winning more new clients!**

- ✓ **Facilitates the introduction of best practice across your business and promotes consistency and excellence throughout….** Raising awareness of costly security issues and reducing the costs of reparation leading to more profits

- ✓ Greatly enhances client confidence inspiring trust that can help secure new and retain existing business. **More retention and more conversions should mean more turnover and** more profits

- ✓ **Increased Company Profitability….**All the above lead to better performance from staff, reduced risk of data loss and a greater confidence from clients old and new. This ensures a greater consistency within your company and far greater opportunity for a well support growth in business and the subsequent **increase in turn-over and profits** that come as reward for good Information Security Management.

Become one of the Hundreds of Companies that enjoy the benefits of UKICM 's

100% first time pass **success for ISO 27001 Certification!**

Achieving ISO 27001 Certification with UKICM

easy as…………

1

We will arrange for a fully Qualified and Friendly consultant to visit and carry out a gap analysis and review of your existing process. Then (off site) create your Bespoke Information Security Management System required to pass your Certification Audit.

These are then e-mailed to you along with any template documents you may need to implement your ISNS in preparation for audit.

2

Your consultant will be on hand for you via phone and email to support you and your team with the full implementation of your Information Security System following right through to and beyond your Independent Audit from an………. Accredited Certification Body………Which we also arrange!

We also provide a Pro-Active Help-Line calling you periodically offering support and advice throughout the whole process.

3

Prior to Audit your Consultant will go through your systems and ensure they are properly prepared. Your audit will then be carried out by an Accredited Certification Body.

After which your organisation will be ISO 27001 Certified and Recorded on the Global Register for all to see.

With hundreds of years combined experience in the ISO World UKICM offer you the best possible people and service at the best possible price. We wont be beaten on Service or Support and Guarantee to beat any quote on a 'Like for Like' package.

UKICM use only **Certified Auditors** as Consultants which **Guarantees** you that……..

✓ Your bespoke ISO 27001 documentation and systems will be fit for independent Audit
✓ You will get the very best support available from people that know ISO 27001
✓ Your hand will be held at all times by our experienced and qualified team
✓ Your Consultant knows exactly what is required to get you through audit and certification both smoothly and successfully.
